### PROFESSIONAL SUMMARY

QA Tester with Full-Stack background (React, Node.js/Express, SQL). Experienced in designing and executing manual test plans, writing structured test cases, performing regression testing, API testing with Postman, and verifying data using SQL. Comfortable working across Client-Server-DB, communicating bugs clearly, and collaborating in Agile/Scrum. Motivated to grow within a professional QA team.

### ACADEMIC PROJECTS & HANDS-ON TRAINING

#### Manual QA / Full-Stack Developer — Kinneret Technology College | June 24–Present

- Planned and executed manual test plans and structured test cases for web systems.
- Performed regression testing after bug fixes and feature releases.
- API testing with Postman (GET/POST/PUT/DELETE), validated status codes, headers, cookies, and JSON.
- Collaborated in Agile/Scrum sprints, created tasks, reviewed changes, and tracked issues.
- Manual Testing: Test Plans, Test Cases, Bug Reporting, Bug Life Cycle, Smoke/Sanity/Regression/Acceptance, Usability, Performance & Stress testing

### SELECTED PROJECTS

#### BuildLocker — Smart Locker System (QA + Full-Stack + IOT)

- Tested end-to-end flows (auth, CRUD, permissions), executed API tests in Postman, and validated DB writes with SQL.
- Reported bugs with clear repro steps and validated fixes via regression tests.
- Stack: React, Node.js/Express, MySQL, ESP8266, WebSockets.

#### Client Management Web App

- Functional and usability testing across create/edit/delete flows and role-based access.
- Issue tracking via Trello/GitHub Issues; sanity checks after hotfixes.

### TECHNICAL SKILLS

- Automation / C# (MSTest): Unit Tests, Arrange-Act-Assert, Assert/ExpectedException, Data-driven tests (DataRow), timeout tests, positive/negative cases
- API Testing: Postman (HTTP methods, JSON validation, status codes, headers, cookies)
- Databases: SQL, MongoDB
- Processes: SDLC (Waterfall, V-Model, Agile/Scrum), DevOps basics
- Tools: Postman, Git, Chrome DevTools, Visual Studio, VS Code
- Languages: JavaScript, C#, C/C++, SQL

### EDUCATION

Practical Software Engineering — Kinneret College | 2023–Present (Avg. 94)

### MILITARY SERVICE

Israel Defense Forces (IDF) — Border Crossings Combat Soldier | 2019–2021

### LANGUAGES

Hebrew — Native | English — Basic
